AAQ Pearson BTEC National

Extended Certificate in Health & Social Care

Read through the student guide as an introduction to the AAQ Pearson BTEC National Extended Certificate in Health and Social Care.

The Units below are all mandatory and will be studied over the course of two years.

Unit 1: Human Lifespan and Development. At the end of the page, scan the QR code in the booklet and go to a Mayor of London animation on YouTube, which looks at health inequalities in London.

Unit 2: Human Health and Biology. At the end of the page, scan the QR code in the booklet and go to a YouTube animation from the Alzheimer's Society, which explains dementia.

Unit 3: Principles of Health and Social Care Practice. At the end of the page, scan the QR code in the booklet to get a feel for this unit, to go to a YouTube playlist from Health Education East of England, which looks at the NHS Constitution and NHS Values.

Optional Units:

Look through the Units 4, 5, 6 & 7. Scan the QR codes at the end of each Unit to give you an understanding of each one and more information about Health and Social Care.
